MIDWEST MINOR BASEBALL ASSOCIATION APPROVAL

League President: _____ (Signature) Date: _____ Approved Denied

League Secretary: _____ (Signature) Date: _____ Approved Denied

Instructions for form completion:

A reminder that all players are required to register in their closest center (FROM THEIR DWELLING), even though there may not be a team in that age category. Once it is determined that there is no team, the Transfer Form may be completed, and the player is required to register in the next closest center that has a team in the division for which they are qualified by age to play. Approval to transfer out of the home association is required (1st Transfer) and the accepting Association (1st Transfer) will need to approve or deny the player. If the association accepts the player, the completed form, with required signatures, can be forwarded to the league (midwestleague@gmail.com) for approval/denial. If the accepting Association denies the transfer (too many players, etc), they now become the Transferring Association and are required to complete the 2nd Transfer. Once completed, the form is forwarded to the next closest association that has a team in the division for which they are qualified by age to play. The accepting Association (2nd Transfer) will need to approve or deny the player. The same procedure mentioned above will need to be followed.

****Please note, even though players have been released in one season, they are required to register with their home association the following season.**
