

East Palo Alto T-Ball/Pitching Machine is a 32-year-old 501(c)(3) nonprofit organization that provides an opportunity for the under-served children to participate in an affordable, minimally competitive and academically supportive athletic program. Our players range from the ages of five to fifteen years old. The organizational emphasis is on teaching the ideals of both teamwork and good sportsmanship.

Our goal is to develop critical thinking, socially conscious, and athletic prowess in order to strengthen and create well-rounded student athletes. This is to best ensure that the youth are prepared academically and competitive for college admission. Additionally, we provide information to parents that will help them guide their children through elementary school, high school and college.
